II. 121 Report Rebecca Holland- Pueblo of Jemez, Vocational Rehabilitation Program

   Rebecca Holland informed that the bylaws state that all Section 121 Tribal VR Programs are allowed to be a part of SRC. Rebecca stated that she has reached out to the Director of Laguna Acoma, and hopes to get her on board.

   Rebecca Holland reported there are 88 Tribal Programs across the nation. Was recently informed that RSA was reducing Tribal VR funds. For 2 years, RSA has not had a competitive grant process for VR Tribal funds. They will only be able to fund 25 of the 36 programs due to the funding reduction. Eleven programs will technically go away. Since the Tribal VR programs have MOU agreements with the state agencies, the cases for those tribal VR programs that are no longer funded will be transferred to the state so that the consumers will still be able to be served. A solution that the Tribal VR programs have talked about so that all the TVR programs up for refunding can be funded is to reduce
their funding by 30-40K so that RSA can take those funds and possibly use it to fund the 11 programs. Outreach and collaborative efforts with DVR – Adrian made commitments and followed through. This resulted in talks with DVR Rio Rancho Staff. Very positive in building relationships. DVR VRC traveling to Jemez every two weeks. Positive effect on clients.

Rebecca announced that she is the new Chair for SILC. If anyone knows of anyone that would like to be on the SILC she would like to speak with them. Please email Rebecca with information of anyone that may be interested. Rebecca sent out a flyer to attend the Youth Transition Conference on educating the Native Youth on transition services, scheduled in July. Rebecca explained that this is not taking the place of the Disability Awareness Day but wrote the grant to alternate between the two.

C. FEAT-Mariela Pijem
Explained that FEAT (Family Employment Awareness Training) is a public employment awareness 2-part training series that started at the University of Kansas FEATS Center. The key training principles are everyone can work provided they have appropriate supports and services; everyone can have a job that is endurable and satisfying making money working other than relying on public benefits. It is an evidence-based curriculum around NM transition and employment. The research of employment options is specific to the State of NM. Another focus is Family Role in that the family’s expectation is the same expectation as the student. It requires an investment of 20K that DVR has obligated. Mariella stated that this could be added to the next meeting agenda for further discussion.

Bernadine asked Adrian about the E-3 Project/Zip code project. A. Update on appointments from Governor’s Office
Bernadine Chavez reported that there would be no new appointees until after August. Requested that the SRC Board members verify terms and identify Expiration dates in the section of reference for position holding.

Per RSA, an SRC member cannot hold two positions on the board and therefore Rebecca Holland cannot represent the 121 Program and SILC. Bernadine stated that Paula would represent the 121 Program and Rebecca SILC.

B. Report on NCSRC meeting
Reported that she attended the meeting. RSA provided information that SRC should have a resource plan in place for travel due to the required RSA prior approval. However, due to the new TAC-18-02 prior approval in not required for SRC travel.
DVR can only cover per-diem costs for SRC members that have been approved by the Governor and the term is not expired. Requirements for the SRC’s and VR Agencies are the Comp.
